Administrator Group of Oasis Hong Kong Virtual

1. VA Policy

This document states all the administrative procedure, rules and regulations governing the operation and the organization of VOHK.

Our pilots are required to fly every 90 days unless the leave of absence has been approved.

2. Standard Operation Procedure

Make sure you read our [Standard Operation Procedure](#) before starting your first flight for Oasis Hong Kong Virtual. You will need VAFinancials (VAFS) Pilot Client to track your flights in VOHK - proceed to [VAFS Client download page](#).

Please activate your VAFS account according to the instructions in the welcoming email. DO NOT confuse your VAFS account with MyOasis ID.

When the pilot is tracking a flight with VOHK VAFinancials Pilot Client,

- It must be **an online flight on IVAO or VATSIM** and pilot shall comply with rules and regulations of the online flying network.
- Proper callsign shall be used, eg. **OHK airline prefix**.

The details and exemptions will be discussed in the SOP.

3. TeamSpeak 3 Server (TS3)

VOHK is a big family, and we recruit our members from Hong Kong and all around the world. You are invited to join TeamSpeak, which is a voice-to-voice chat room where members chit-chat together. We welcome both Cantonese and English speakers. [Visit our TS3 page](#)
